

# SK INDEX - VOLUMES 38/38-b

In the following index, which covers Volume 38 - August, 2013 through July, 2014, and 38-b - August 2014 through December 2014 of *Skinned Knuckles*, each subject is followed by a series of two numbers separated by a hyphen. The first number, before the hyphen, represents the Issue Number (August is number 1, September number 2, through July number 12). The second number, after the hyphen, is the page number. In the case of a single entry, only one number will appear; in the case of multiple entries, a series of numbers, separated by a comma, will appear. For the limited issue Volume 38-b, the volume number is preceded by the letter 'b'. Example: McQuay-Norris Manufacturing. References appear in issue b1-42 (August) on page 42, and in issue b2 (September) on page 35. Additional topics can be found in the Back-Issue Index (in the December issue), or on our website, [www.skinnedknuckles.net](http://www.skinnedknuckles.net). The website will include topics in all available issues through volume 38-b as well as providing information on how to purchase back issues. Reprints of specific articles are not available, but complete back issues may be purchased, if in stock. Go to [www.skinnedknuckles.net](http://www.skinnedknuckles.net)
